## Information regarding the use of the Schauinsland cable car.

The cabins are up to 60m above ground level during the 20-min ride.

Each cabin is designed for 7 persons maximum.

There is no conductor in the cabin.

Children until 13 years included can only use the cable car if they are accompanied.

Persons in a wheelchair and visually or hearing impaired passengers can take the cable car, if they are accompanied. Please pay attention to our user instructions.

Persons in a wheelchair (also electric) and visually or hearing impaired passengers without an accompanying person should check the possibilities of use and pay attention to our user instructions before departure.
